Dear Dr. Milind,

Sub: **Invitation to speak at the upcoming 10th Transforming Healthcare with Information Technology (THIT) conference, scheduled to be held on 16-17 November 2022 at The Ashok Hotel, New Delhi**

Greetings from Apollo Hospitals Group!

Apollo Telemedicine Networking Foundation has been organizing an international conference ***"Transforming Healthcare with Information Technology www.transformhealth-it.org"*** since 2010. The 09th edition of this conference was held at the Hyderabad International Convention Centre, Hyderabad on 13-14 Sep 2019 and was well received with an attendance of 850 delegates representing from 9 different countries. Previous participants have included Lord Nigel Crisp former CEO NHS, Vinod Khosla Co-Founder Sun Microsystems, Sam Pitroda former IT Adviser to the Prime Minister of India, Nobel Laureate Bishop Desmond Tutu, Cabinet Ministers, State Ministers, Secretary to the Govt and Directors of National Institutes. Due to the COVID Pandemic, THIT was not held in 2020 and 2021. This gap would make the conference even more exciting as attendees would now have an opportunity to be exposed to state-of-the-art recent developments in the broad field of technology and healthcare.

In this context, on behalf of the Scientific Committee, it is my privilege to invite you as a speaker in this event. Suggested topic is "**Regulatory and Legal Concerns in Deployment of AI in Healthcare**" or a similar topic of your choice**.** As an invited speaker, you will be given complementary registration.

As we need to finalise the programme soon, would deeply appreciate an early confirmation.

Thanking you,
With Kind Regards and Best Wishes,

K. Ganapathy
Chairman, Scientific Committee

A brief note of THIT conference is given herewith: Transforming Healthcare with IT is the largest Healthcare & IT based international conference and trade show in India organized by Apollo Telemedicine Networking Foundation every year. THIT offers its attendees comprehensive two days interactive sessions, educational programs, social activities and a trade exhibition showcasing the latest products, technology, services and industry information. The scientific program features eminent national and international speakers. The audience profile includes decision makers in the emerging Healthcare IT arena including leading IT companies and healthcare institutions. Several National and Government organizations have been endorsing and participating in this event since 2010. **A quick glimpse of THIT 2019: A)** 50+ National & International speakers participated **B)** 800+ Healthcare & IT professionals attended **C)** 48+ Sponsors supported. The conference website [www.transformhealth-it.org] will confirm that this conference has indeed been a game-changer in South Asia.
